KS5 Results Day, August 2023

We are very proud of the Sixth Form at Wallingford where we offer a wide range of courses, high quality teaching and strong student support throughout the two years. Our results are outstanding and our value added puts us amongst the best schools in the country. Our Sixth Form enables students to access places on the most competitive university courses and apprenticeships whilst also providing two enriching years of opportunities and fun.

For the staff who work here it feels great to know we are still catering for the whole of our community and not selecting students. It is a privilege to work with some of the brightest academic students anywhere while ensuring we help those who need a different approach to make the next step in their lives.

The majority of our students progress to university places and we are very successful in getting large numbers into the more selective Russell Group universities. At the top end we have secured twelve Oxbridge, medicine and veterinary school offers in the last three years. As a very high-performing school, much of this is to do with securing top grades but we also take great care over the application process and ensure that the experience in Sixth Form here is about a lot more than what goes on in the classroom. We are keen to encourage young people to consider apprenticeships when they leave us, however impressive their profile of results. We are very traditional. Free periods are free only in the sense that young people get to study what they want in the Sixth Form study area. Beyond that we put a lot of resources into ensuring that there are many varied opportunities to develop as a character and enjoy each other's company, be it on activities we run in school or the high-profile trips that are so popular with staff and students. It is a welcoming, happy and very successful Sixth Form. We are extremely proud of it and hope you can appreciate why.
