

The Curriculum at Wallingford School

We are proud of the curriculum we offer for all year groups at Wallingford School. Students have the opportunity to follow a broad and balanced curriculum during their time at Wallingford School, through a wide range of opportunities, subjects and courses. The curriculum supports students in acquiring knowledge, understanding and skills in all aspects of their education, including the humanities and linguistic, mathematical, scientific, technical, social, physical and artistic learning. In particular, we allow students an 'open choice' at Key Stage 4 and do our best to accommodate their preferences. We do not insist that any student follow the English Baccalaureate. Our curriculum is reviewed each year to ensure we are offering courses that are rigorous and challenging and enable students to transition successfully onto future pathways.

This document provides an outline of our curriculum model. Further details regarding the specific content covered by each subject area can be found on the curriculum overview documents.

Key Stage 3 Curriculum

We place a very high value on a broad and balanced three-year Key Stage 3 curriculum.

Year 7

Mathematics	English	Science	Geography	History
Philosophy, Religion and Ethics	Dance	Drama	Music	Art
Physical Education	Spanish or German	ICT/STEM	Design Technology	PSHE

All classes are mixed ability.

Year 8

Mathematics	English	Science	Geography	History
Philosophy, Religion and Ethics	Dance	Drama	Music	Art
Physical Education	French and German	ICT/STEM	Design Technology	PSHE

Maths is taught by ability.

Year 9

Mathematics	English	Science	Geography	History
Philosophy, Religion and Ethics	Dance	Drama	Music	Art
Physical Education	French and German	ICT/STEM	Design Technology	PSHE

Maths is taught by ability.

Throughout Key Stage 3 there are a number of curriculum pathways available which include alternative and curriculum support provision for some students.

A programme of Careers Education, Information, Advice and Guidance (CEIAG) is built into Key Stage 3 to aid students in the decision-making process in Year 9 regarding options for KS4. This provision is built into a coherent programme delivered through PSHE lessons. Further CEIAG input is delivered through assemblies, tutor time and extra-curricular events.

Key Stage 4 Curriculum

Students choose options in Year 9 to start in Year 10. They are guided through this options process via assemblies, a comprehensive options booklet, PSHE sessions, an options evening and guidance interviews with senior staff.

All Key Stage 4 students study English (Language and Literature), Mathematics, Science, Core Physical Education and PSHE. In addition, they can choose from the following option subjects:

Art GCSE	Food Preparation and Nutrition GCSE	Health & Social Care BTEC	Music Technology GCSE	Religious Studies GCSE
Computer Science GCSE	French GCSE	History GCSE	Photography GCSE	Resistant Materials - D & T GCSE
Dance GCSE	Geography GCSE	Information Technology OCR Cambridge National	Physical Education GCSE	Skills for Life
Drama GCSE	German GCSE	Music GCSE	Product Design - D & T GCSE	Textiles - Art & Design GCSE
Enterprise BTEC Tech Award				

There is setting in Mathematics and Science by ability and some streaming in English. There is also some setting within Core Physical Education.

Key Stage 5 Curriculum

All Year 11 students have an individual meeting with a member of leadership prior to making their Sixth Form pathway options. In addition to this guidance meeting, there are assemblies, an open evening, PSHE sessions and a meeting with our careers leader to ensure that students are making the right choices for them.

We place an emphasis on individualised study programmes, with different combinations of qualifications and activities based on individual needs. A student joining Wallingford Sixth Form can study any combination of the following options, depending on their prior attainment (to meet entry requirements) and future aspirations:

A Levels	Level 3 Vocational qualifications
GCSE English	Access Course (GCSE English, GCSE Mathematics, BTEC Public Services, BTEC Travel and Tourism, PE, work placement)
GCSE Mathematics	Core Mathematics
Extended Project Qualification	

Our curriculum offer is reviewed annually. We tend to run courses across a variety of subject areas, including:

Mathematics	English Literature	Biology	Chemistry	Physics
Further Mathematics	History	Geography	Art	French
German	Drama	Physical Education	Music	Sociology
Politics	Psychology	Media Studies	Product Design	Textiles
Philosophy	Photography	Philosophy, Religion & Ethics	Health and Social Care	Business
Applied Science	Sport			

In addition, all students:

- Complete the Sixth Form PSHE programme (one lesson per week), which covers a range of relevant skills and topics
- Take part in 'Year 12 Futures Week', where the focus is on preparing for next steps
- Are offered careers advice from our independent careers advisor
- Are encouraged to take part in at least one Work Experience during their time in Sixth Form
- Are encouraged to make the most of additional learning opportunities, such as online courses (MOOCS)
- Complete additional 'non-qualification' activities to develop the character, skills, attitudes and confidence that support progression, such as academic mentoring, pastoral support, charity work, volunteering, sixth form sport, debates, home and international trips and membership of committees

Further Information

If you would like more information about our curriculum, please use the school contact details and direct your message to Mr Lamb, Deputy Headteacher.
